ABOUT ME

Full Stack MERN Developer with hands-on experience in building scalable and responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in frontend and backend development, REST API development, and database management. Strong knowledge of JavaScript (ES6+), component-based architecture, and performance optimization. Passionate about developing user-friendly applications and writing clean, maintainable code.

PROFESSIONAL TRAINING

[SDLC Skill Development Learning Center, Trichy] | [2026]

- Completed hands-on training focused on **React.js frontend development** and full-stack application architecture.
- Designed interactive user interfaces using **React Hooks, Functional Components, and JavaScript ES6+**.
- Integrated frontend applications with backend APIs using Axios and Fetch.
- Developed full-stack applications with authentication and database connectivity.

PROJECTS

1. Smart Farming (MERN Stack)

Environment : MongoDB, Express.js, React.js, Node.js, JavaScript

Roles & Responsibility : Full Stack Development, REST API Development, Database Management, JWT Authentication, API Integration, Deployment

Website : <https://smart-farming-and-market-management.vercel.app/>

Description :

- Developed a full-stack smart farming and marketplace application using MongoDB, Express.js, React, and Node.js.
- Implemented RESTful APIs, secure CRUD operations, validation, and error handling.
- Used JSON Web Token (JWT) authentication with role-based access for Admin, Farmer, and Buyer.
- Integrated [OpenWeather API](#) and api.data.gov.in APIs for weather updates and Tamil Nadu market price analysis.
- Farmers can manage crops, track sold/remaining KG and sales price, receive orders, and verify delivery using OTP.
- Buyers can browse crops and place orders directly from Farmers.
- Implemented MongoDB Aggregation for profit analysis, sales tracking, and dashboard insights.

2. Intelligent Flight Tracking System (React + API)

Environment : React.js, JavaScript, Leaflet.js, REST API

Roles & Responsibility : Frontend Development, API Integration, Map Integration, State Management, Performance Optimization

Website : <https://intelligent-flight-tracking-system.vercel.app/>

Description :

- Developed a real-time flight tracking application using React and Leaflet.
- Integrated [Airlabs Flight API](#) and [OpenWeather API](#) for live flight and weather tracking.
- Implemented country-based and flight status filtering with interactive map features like auto zoom, flight popup details, satellite view, and live location tracking.
- Implemented live user location tracking and custom flight icons using Leaflet L.divIcon.
- Used React Hooks including useState, useEffect, useRef, and useMemo for state management and optimized rendering.

3. Rhythmix-Online Music Instruments Store (JavaScript)

Environment : HTML, CSS, JavaScript, ES6+, Local Storage

Roles & Responsibility : Frontend Development, Admin Panel Development, Cart Management, DOM Manipulation, Responsive UI Design

Website : <https://online-music-instruments-store-with-admin-management-6xy48j96b.vercel.app/>

Description :

- Developed an e-commerce web application for online music instrument sales using HTML, CSS, and JavaScript.
- Implemented admin product management, cart functionality, and order confirmation email feature.
- Used ES6+ methods (map(), filter(), reduce()) and Local Storage for data handling.

4. Portfolio Website (React.js)

Environment : React.js, JavaScript, Framer Motion

Roles & Responsibility : Frontend Development, UI Design, Component Development, Deployment

Website : <https://portfolio2-six-amber.vercel.app/#/>

Description :

- Developed a responsive personal portfolio website using React.js to showcase projects and technical skills
- Implemented reusable components, responsive UI, and smooth navigation.
- Used React Hooks and Framer Motion for functionality and animations.
- Managed deployment and version control using Git and Vercel.

5. Age Calculator (JavaScript)

Environment : HTML, CSS, JavaScript

Website : <https://agecalculator-eight-kappa.vercel.app/>

Description :

- Developed an Age Calculator web application using HTML, CSS, and JavaScript
- Implemented date-based age calculation using JavaScript Date object and DOM manipulation.

6. SpicyHunt – Restaurant Website (HTML, CSS, Bootstrap)

Environment : HTML, CSS, Bootstrap

Website : <https://spicyhunt-ebon.vercel.app/index.html>

Description :

- Developed a responsive restaurant website using HTML, CSS, and Bootstrap.
- Designed modern UI sections with responsive layouts and interactive components.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap, jQuery
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub, VS Code, Postman, Render
- **Core concepts:** REST APIs, CRUD Operations, JSON, JWT Authentication, MVC Architecture

EDUCATION

Bachelor of Engineering (B.E) — Electrical and Electronics Engineering

NSN College of Engineering and Technology-karur | 2021 – 2025 | CGPA :7.6

Higher Secondary Certificate (HSC)

C.D Government Higher Secondary School - Dindigul | 2020 – 2021 | Percentage : 76.63%

Secondary School Leaving Certificate (SSLC)

C.D Government Higher Secondary School - Dindigul | 2018 – 2019 | Percentage : 69.8%

CERTIFICATIONS

MERN Stack Developer Certification — SDLC Skill Development Learning Center, Trichy | 2026

DATE : 14-05-2026

PLACE : DINDIGUL
